Don't Forget Those Who Lead.

Progressive, preventative medical services can keep your employees healthy and will lead to increased productivity and reduced downstream costs for your business.

WHO IS PROTECTING YOUR LEADERS?

Top companies and entrepreneurs have lawyers, accountants, and insurance brokers to protect the physical, financial, and intellectual interests of their businesses. Lost in that list is health protection for the people occupying leadership positions within the organization.

WHO IS TAKING CARE OF YOU & YOUR TOP PEOPLE?

24Care takes a proactive approach to Corporate Health Management, for senior executives and entrepreneurs.

OUR APPROACH IS BASED ON:

PREVENTATIVE STRATEGIES

We frequently identify minor and serious modifiable health issues and develop plans of action to get our clients on the best path for prevention and treatment.

CONVENIENT PRE-SCREENING

We do a prescreening questionnaire coupled with blood tests in advance of an appointment. This allows efficient and focused use of time during corporate medical appointments.

IMMEDIATE SERVICE

The 24Care team is available 7 days a week, and will act immediately to begin to solve acute & chronic health problems.

A NEW APPROACH

Time away from work of senior leaders and executives represents a risk to any organization. These individuals represent the vision, experience, and leadership of the company, and without them the company is substantially less competitive.

At 24Care we help prevent problems before they start, and quickly identify and act upon medical conditions that may not have previously been picked up.

The 24Care Advantage

Locally based, expert team approach to solving your corporate health care needs

Medical care on your schedule

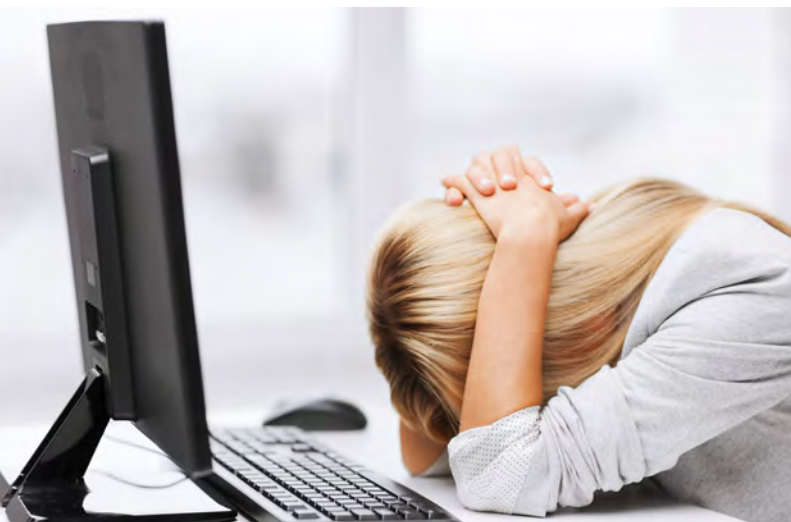

Customized corporate medical solutions

Immediate response – 7 days a week

Our team will navigate the healthcare system on your behalf

Internet based health records/assessments

Confidentiality is assured

OUR CORE VALUES

24Care was founded on the belief that organizations are most effective, efficient, and profitable when senior leaders are healthy. That is why our core program is based on the concept that immediate access to professional healthcare, combined with proactive prescreening and monitoring is the key to reduced risk and improved workforce health.

We accomplish these goals with a team led by local emergency room physicians who are skilled in the immediate identification of problems and are experienced navigating complex referrals and follow up.

Our primary service offerings include our 24Care Program and our comprehensive medical exams.

24Care Program

24CARE SERVICE PROGRAM

24Care provides access to our team seven days a week via email, phone, or video link. Enjoy peace of mind for anything from simple questions to immediate need for medical care. Locally, this includes access to a team member in the clinic, office, or a home setting to make sure you get back to business as soon as possible.

Medical Exams

EXECUTIVE MEDICAL EXAMS

An efficient, comprehensive, yearly physical is a key to baseline health for discriminating clients. Clients may also need urgent tests, consultations, and health action. It is our job to assess and manage follow up so that your needs are met quickly with the best care. We will minimize the period of uncertainty, stress, and illness, and get you back to work and your family.

ADDITIONAL & COMPLIMENTARY MEDICAL SERVICES

WORK SITE NEEDS ANALYSIS

A preventative analysis of work patterns, site issues, and employee ideas and concerns can save money and increase productivity.

TRAINING

24Care offers a variety of training programs on things like material safety, CPR, rescue techniques, Basic Life Support, and much more, depending on a company's needs.

EMERGENCY TRAVEL SERVICES

24Care provides travel preparation with immunization & local health information, as well as phone and video support on the ground, with links to nearby health resources for employees on the road.

EMERGENCY PLANNING

If an employee has a critical situation, an immediate clear plan is required to access local treatment, optimize employee well-being, and to minimize time lost from operations.

MOBILE HEALTHCARE

For companies with overseas offices or remote work sites, 24Care can assemble a package of medications and treatments which may be administered locally with remote support.

CONVENIENT ONLINE RECORDS

24Care uses sophisticated and secure internet based Electronic Medical Records to make client information, health history, and medications accessible anywhere, anytime.

ABOUT 24CARE

24Care has assembled a comprehensive team of physicians, paramedics, nurses, and allied health professionals to provide the most comprehensive care to businesses big and small.

We have the ability to help one person or large companies with thousands of employees in a quick, efficient fashion.
